The Routing of Smaller Shipments

By:	Doc. No./Rev. No.:	Date:
nfr	3.3.1. / 02	18.05.2021

As a preventive action we have worked out below overview scheme to help our clients or their suppliers to better understand the way the goods follow. Aim is to ensure goods travel the straight way from A to B without hick-ups.

Partloads Import/Eksport

Typically part loads will follow the route as shown in figur. 1 below. In short the goods changes hands 6 times. This is why marking, packing and wrapping should be of concern to everybody dealing with the transport of goods.
